READING THE WAKMANN TIMERS

Designed specifically for the measurement of short intervals of time in industry and sports, WAKMANN timers provide split-second accuracy. The dials are clear, legible at a glance—with colored divisions. The crown and push-buttons are sturdily built for intensive usage.

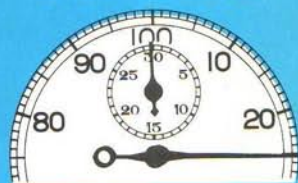

On page 2 through 6, we show a wide range of special purpose timers.

1/5TH SECOND

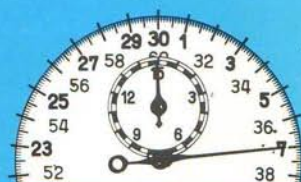

The center hand does one complete revolution of the dial in 60 seconds and the register records up to 30 minutes.

1/100TH MINUTE

The minute is divided into 100 parts on this decimal dial and the register records up to 30 minutes.

1/10TH SECOND

The center hand does one complete revolution of the dial in 30 seconds and the register records up to 15 minutes.

1/10 SECOND TIME OUT TIMER

7 Jewel. Start, stop, continue from crown. Returns to zero from side button.

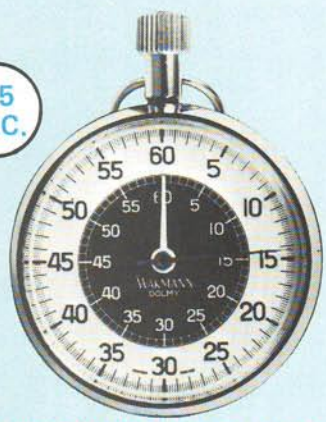

818

Dear Watch Buyer:

We are pleased to send you our new catalog which offers you three distinct lines:

WAKMANN
BREITLING **DESTA**

Today, as it has been for over three generations, these 3 names symbolize fashion, quality and precision timekeeping instruments—and are accepted throughout the world.

Wakmann Watch Company is a prime source of quality timepieces for governmental agencies, industry, scientific research organizations, as well as leading jewelers and sporting goods companies.

We hope that this catalog will enable you to select the best timepieces available today. All watches and timers illustrated herein, are guaranteed for performance and accuracy.

The Wakmann Watch Co., Inc.
